Dear Parent/Carer

Improving School to Home Communication

I would like to take this opportunity to thank those parents/carers that have registered with ParentMail; our new communications system.

Like most new systems we have experienced a small number of teething issues, however, these have moved forward positively and we are successfully communicating with 82% of families via ParentMail. I would like to encourage everyone else to register as soon as possible. Only a small number of registered users have also signed up to the mobile app, which we highly recommend to make communicating via smartphone even simpler; it is free to download from the App Store or Google Play.

From September 2018, to reduce our use of paper and improve school operations we will be striving towards becoming a cashless and paperless school and need parental help to achieve this. We believe that ParentMail and the use of the ParentMail app will be extremely beneficial. The system allows you easy access to check regularly on vital information in relation to you, your child and the school. As a single point of focus, as well as being an effective communications system, payments for trips, dinner money and other purchases can be done through ParentMail. In addition to paying by credit/debit card we are also introducing the payment method of Paypal which we hope will improve our service. In the future, we are looking to use the Parents' Evening module which will allow you to book teacher appointments online.

In September, Mrs Peers will be contacting those families who have not yet registered to assist you in doing so and to answer any questions you may have.

Thank you for your continued support.

Yours sincerely

Ian Morrel
