

# Rebekka Vincent

**Q) What years were you at Titus Salt?**

2007-2012.

**Q) What are you doing now?**

I'm in the fourth year of my Medicine degree at Newcastle University. Hopefully, I'll qualify as a doctor in July 2017.

**Q) Did you have a favourite teacher? If so who, and why?**

Miss Easton taught me Chemistry in the Sixth Form. She always went above and beyond as a teacher, helping me with after-school revision and my application to medical school.

**Q) Any advice for our current students?**

Think about potential careers as soon as possible so you can choose the right A Levels. Do some work experience – you never know if you'll enjoy a job unless you understand what's actually involved. Be confident, and go for it!

**Spring 2016**
