

October 2019

Dear Parent/Carer

On Monday 14 October between 15:00 – 16:00pm the first STEM club of the year will take place. If your son/daughter is interested in Science, Technology, Engineering and Maths, then this club is for them. They will be taking part in practical activities that would challenge their STEM skills and put them into real life contexts.

Improving engagement and enjoyment of STEM subjects is an important aim of our school as there is still a shortfall in the number of people wanting to become engineers and scientists in the world. STEM club is one way we can address this.

If your son/daughter would like to take part, there is a sign-up sheet outside TE01 (which is also where the club will take place). They just need to add their name and form group.

If there are any questions, then please don't hesitate to contact me.

Yours sincerely

**Mr Stuart Green**  
**Leader of STEM**
