

1 February 2021

Dear Parent/Carer

### **Unifrog – The Complete Destinations Platform for Careers Information, Advice and Guidance.**

In keeping with our commitment to provide pupils with outstanding careers guidance and tailored support when choosing their next steps in terms of qualifications and career aspirations, we will now be using **Unifrog**; an award-winning, online careers platform. All pupils in Years 7-11 will now have access to this excellent website, which is already in use and established for our Post 16 students.

We have decided to roll out Unifrog for pupils online, due to the on-going pandemic and restrictions in face to face school lessons/attendance. We think it is important that pupils and their families understand that there is a future to be planned for and that encouragement can be taken from that. Unifrog is also of benefit to pupils of any age. It is never too early to start on this.

Unifrog can be used to help pupils make informed decisions about their future GCSE, A Level and vocational subject choices. It brings into one place every college, apprenticeship and university course in the UK, making it easy for pupils to compare the different academic, vocational and career pathways and choose the best option for them. It is also a useful tool for exploring the subjects which pupils can study at higher levels, based on their favourite subjects at school as well as their wider interests. Additionally, the platform helps pupils write applications and CVs for work experience by guiding them through the process and allowing teachers to give live feedback.

Pupils will login for the first time using a sign-up code sent to them by Unifrog. This is being sent on **Wednesday 3<sup>rd</sup> February** via their **school email address**. Pupils will then be able to login using their school email address and chosen password in the future from any computer, tablet or smartphone. When school re-opens fully, we will be using Unifrog during tutor time to support pupils through the process of deciding their future. At the moment, we would encourage you to use Unifrog at home with your child when discussing their options and future aspirations. In order to do this, we are providing you with the following parent login:

The code you need is: **TISSPARENT2050** (beware this is case sensitive) and you can sign up here: [www.unifrog.org/code](http://www.unifrog.org/code).

Other useful materials are going to be put on the school website over the next few weeks. A quick way to access these resources is by using the following link <https://bit.ly/3crTJtJ>

If you have any questions related to this platform, please do not hesitate to contact me directly via the school's telephone number - 01274 258969 or email at - [bir@titussaltschool.co.uk](mailto:bir@titussaltschool.co.uk).

**Kevin Bird**  
Careers and Work Experience Co-ordinator
