STEPS TO SUCCESS
...THINK ABOUT

SUBJECTS

What's the difference between
A Level & BTEC/Vocational subjects?
Which suit me best?
What subjects do I love?
What are the subject entry requirements?
Should I pick something I've never studied before?
How many subjects will I study?
How many lessons each week?
What are the class sizes?

THE FUTURE

What career(s) interest me? (Don't worry if you don't know yet.)
Do certain subjects lead to a specific career pathway?
Are some subjects better for entry onto university courses?
Would I prefer to earn while I learn?

STUDY

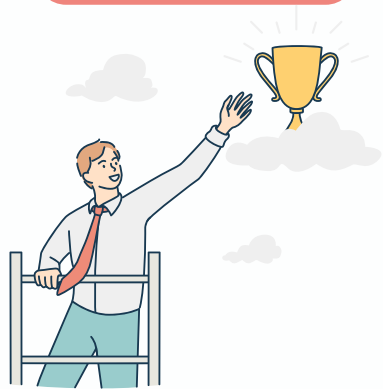

What does independent study actually mean?
How much time should I spend studying outside lessons
Do I need to work on my organisational skills?
Where can I study?

SUPPORT

What if I don't get the required GCSE grades?
What support will I get from staff?
How much help is given with apprenticeship, job or uni applications?
Who can I talk to about life after sixth form?
What does school offer to help me stand out from the crowd?

SPECIAL

What makes the Denys Salt Sixth Form Centre the right choice for me?
How are sixth formers treated differently to main school students?
What are the school's expectations of me?
What extra-curricular and fun stuff is there for sixth formers?
What's the dress code?
What facilities are there?
